I love how Hilton Sutton presents the book of revelation. He doesn't do it in a fearful manner that will make someone afraid. He says that when you read it you should always focus on what Jesus is doing rather than focusing on what the anti christ is doing because revelation is really about Jesus and his work on the earth doing that period. He does the best job of teaching this miss understood book better than any author I have ever read after. He addresses the myth that the anti christ will rule the whole world and how it is incorrect. Also how he will not control everything and or get everything he wants. He will only get control over the European and Mediterranean countries but

not much else. Not only that, but what he does get control of he will have to fight for it and struggle to keep it all while being frustrated and ready to put his hair out because of his lack of progress according to what the author teaches here. Basically, if you want to understand revelation better than ever before than you should study this book by this great man of God.

At last a prophecy teacher who does not give you opinions just the Scripture. It is the first time I have heard or read a work by a minister who allowed the Scripture to interpret itself without adding anything to it. It is so easy to understand. Until now I have read so many books about Revelation and all the writers had to give what they thought something means and none of them agreed with each other. As for me I will take God's Word over a man's any day of the week and twice on Sunday and that is what you get from Dr. Sutton. If a minister does not know from Scripture what the meaning of something is they should leave it alone. Here you don't have to worry about a man's word you have God's Word for every verse. What a book. I must find everything I can my Dr. Sutton on prophecy. If all of his work is like this book now I can learn something that I know is true because God said it not some man and you can look up Dr. Hilton Sutton on the Web. He has a large web page and I have already ordered several items. Cannot wait to get them. Dr. Sutton by the way is a man of great learning receiving his degrees in the US, England, and Israel. A World War II vet., flyer. He was in the China area during the war. The man is deep in knowledge, but uses it to help you understand world events, but never does he get in the way of God's Word. In these days this is a must read.

The book of Revelation is so difficult to understand, but this study does a lot to cut through the outer layers of mystery to explain the history and prophecy leading up to John's exile, and his interaction

with Jesus and the angels, Who foretold the end times, the anti-Christ, the beast, his angels, and Babylon, and even more wonderful the New Jerusalem with God's presence being the Light.

I was loving this book. Then someone wanted to read it before I was finished with it and they never gave it back. But, I will get another.
